

## **Product Specification**

Power Requirement - 230v 50/60 Hz

Maximum Power - 2,900 W

Variable Steam Output Volume - Digital

Steam Pressure - 5.5 Bar

Nominal Steam Temperature - 156°C

Boiler Capacity - 0.7 Litre

Boiler Material - RVS AISI 304

Heating Up Time - Approx 3 minutes

Hose length - 2.3 m

Autonomy - Continuous Operation

Indicator for lack of water - Yes

Cable Length - 4.2 m

Certification/Marking - CE, IPX 4

Adjustable Pressure Output - Yes

Incorporated Vacuum Unit - Yes 1200 W

Wet/Dry Vacuum - Yes

Vacuum Tank Capacity - 1.5 Litre
